GROUND THAWING

CROWN CONSTRUCTION EQUIPMENT

**FOR SALE
OR RENT!**

HK150 thaws 2800 sq. ft.

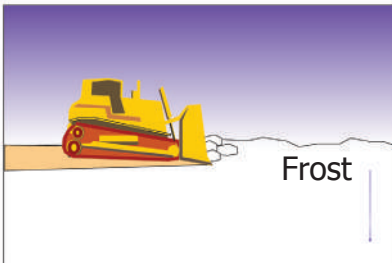

HK300 thaws 5600 sq. ft.

HK500 thaws 11,200 sq. ft.

**THAWS THE GROUND AND KEEPS YOUR PROJECT
MOVING DURING WINTER MONTHS!**

Thaw Plan

Crown Construction Equipment presents the **Heat King** Mobile Glycol Heating System. A faster way to prepare foundations, sites and cure concrete in cold weather.

Heat King also saves on labor, speeds preparation and lowers energy costs by as much as 80%.

Using Heat King Ground Thawing!

- Remove all surface ice and snow from the site.
- Place polyethylene vapor barrier over the frozen ground. Failure to do so will lengthen the time required to complete the thaw.
- Evenly place the 8-700' loops on the ground up to maximum for the unit. Spacing is determined by the depth of the frost.
- Generally use all the hose on the reel, even if not needed, this will speed the thaw.
- Cover the hoses with a poly vapor barrier and poly clad insulating blankets to keep the heat and the moisture directed to the ground.
- Use at least R15 worth of blankets - the more blankets, the better.
- The 2 coil heaters warm the environmentally friendly propylene glycol in the reservoir to 180F. The field pump circulates the heated glycol through the field hoses and back to the reservoir for reheating.
- Do not stop until all the frost is removed or the water will not be able to drain completely away.

CONSTRUCTION HEATERS

Workman Heaters

- Convection Heaters
- Mushroom Style
- Durable Efficient Heat
- No Electricity Required

Workman 100NPLUS: 100,000 BTU
Nat Gas

Workman 225PLUS: 225,000 BTU LP

Tradesman Portable

- Portable Forced Air
- Electronic Ignition LP & NG
- Thermostatically Controlled

Tradesman 170: 170,000 BTU PROPANE

Tradesman 170: 170,000 BTU NAT GAS

Tradesman 400: 400,000 BTU LP

Workman Torches

Premier Unit Heaters

- Ductable Direct-Fired
- Models for LP & Natural Gas Fuels
- Low Noise
- Totally Enclosed Flame
- Thermostatic Control

Premier Models are available from
80,000 to 350,000 BTU on
special order basis.

Tradesman K Series

- Portable Style Using Kerosene or #1
Grade Fuel Oil

Tradesman K70: 70,000 BTU

Tradesman K75: 75,000 BTU

Tradesman K165: 165,000 BTU

Tradesman K175: 175,000 BTU

Tradesman K210: 210,000 BTU

Tradesman K350 & K600 are available on a *special order basis.*

- LP Fuel
 - Steel Construction
 - Hose Included
- Torchman50:** 500,000 BTU

DRYAIR

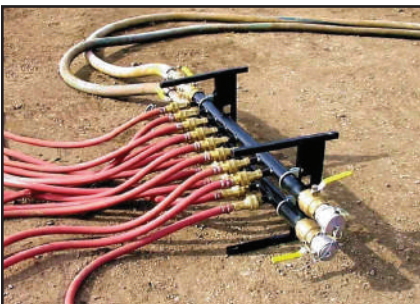

FROST

Fighters

The Ultimate Heating System That Assures Clean, Dry Heat For Any Size Construction Project

Versatile Set-Up & Heat Delivery

- Multiple sizes allow individualized approaches to each project.
- Heating module can be positioned anywhere on site.
- Computer software allows for precise calculations.
- Clean, dry heat keeps jobs on schedule.

Delivers Clean, Dry Air

- Heat is provided by liquid-to-air transfer.
- No direct flame burners, so it does not produce moisture or noxious fumes.
- Faster drying of drywall, paint, stucco and concrete.
- Adjustable hose & coupling system reduces clutter for neatness and safety.

Increased Productivity

- Automatic temperature control and no-flame heat exchangers reduce supervision requirements.
- Portable exchangers deliver heat only where it is needed.
- Thermostatically controlled heat exchangers eliminate hot spots, maintaining desired temperatures.
- Quick-connect couplers allow easy set-up and maneuverability.

WINTER PERSONAL PROTECTION

360-BEANIE-LY

- Hi-Visibility Winter Beanie Cap
- Non-ANSI
- Reflective Stripe

HI-VIS Brushed Acrylic Glove with Latex Crinkle Grip

Product # 41-1420

- Seamless construction for comfortable fit
- Coated palm and fingers
- Excellent thermal insulation
- Quickly evaporates moisture from the skin

HI-VIS Coated Acrylic Glove with Latex Microfinish® Grip

Product # 41-1400

- Seamless construction for comfortable fit
- Coated palm and fingers
- Quickly evaporates moisture from the skin
- Excellent launder-ability characteristics

Black Seamless Outer Liner/Acrylic Inner Shell with Black Microfinish® Grip

Product # 41-1430

- Acrylic gloves provide economical cold weather protection
- Latex MicroFinish coating provides a superior grip in dry and wet conditions
- Excellent thermal insulation

Value Black Trim Bomber

Product # 333-1766 LY

- Hi-VIS Lime Yellow
- ANSI 107 Class 3
- Durable Waterproof polyester outer shell with taped seams
- Back trim helps conceal dirt
- Removable black fleece liner
- 2" silver reflective tape
- 5 pockets with radio/pen pockets

Class 3 Hooded Lime Sweatshirt

Product # 323-HSELY

- Zipper front
- 2 side pockets
- 2-inch silver reflective tape

Rip-Stop Premium Plus Bomber Jacket

Product # 333-1770

- PU coated waterproof rip stop polyester shell with taped seams
- Harness "D" ring access point on back
- Zipper closure with double flap storm front

7-in-1 All-Conditions Coat with Inner Jacket and Vest Combination

Product # 343-1756 YEL

- Hi-VIS Lime Yellow/Black
- ANSI/ISEA 107 Class 3
- Durable waterproof polyester with taped seams
- Lined with polyester mesh and smooth nylon taffeta
- High-fleece lined collar with roll away hood
- Heavy duty zipper closure with storm flap additionally secured with snaps
- 2" 3M Scotchlite™ silver reflective material
- Radio pockets with side hand-warmer access

ON THE INSIDE

- Class 2 Inner Reversible Jacket/Vest
- ANSI/ISEA 107 Class 2
- Durable water-resistant polyester shell
- Quilted with polyfil insulation
- Fully reversible to black with zip-off sleeves

WINTER ACCESSORIES

Reinforced Poly

New Grip-Rite string reinforced poly features woven reinforced bands with perforated eye lets that enable and secure fastening to scaffolding. Used in combinations with Grip-Rite anchor ties, our enclosure system forms a reliable barrier between the job site and the elements.

PIP® ANSI Class 3 Two-Piece Value Rain Suit Set

Features:

- Lightweight polyester with waterproof PU coating and taped seams
- Zipper closure with storm flaps
- Elastic waist pant with snap adjustable cuff
- Concealable hood for extra protection

PIP® Heavy Weight Cotton/Polyester Jersey Glove with Red Jersey Liner

Features:

- Heavy weight - used for light protection in warehousing, farming and the automotive industry
- Cotton/Polyester construction is breathable and decreases hand fatigue
- Wing thumb increases comfort in open-handed work

4CCPL-50 50LB Bag 4CCPLPAL-50LB Pail

(subject to availability)

- Pellet Style Ice Melt utilizing concrete safe calcium chloride to provide melting down to -25° below zero
- Exothermic reaction on contact with water

WINTER ACCESSORIES

Poly Plus™

Eagle's Poly Plus is a lightweight 6 mil reinforced poly sheeting that is not only designed to attach to all scaffold systems but also can be used for all poly-purpose applications. Poly Plus is great for wind/weather protection, environmental protection, job site covers and more. Poly Plus is manufactured with seven eyelet bands allowing for maximum bungee attachment points to scaffold frames.

Applications:

- Scaffold Enclosures
- Weather Protection
- Storage Wrap, Temporary Protection
- Construction and Masonry Projects
- Total Weather Enclosure

Product Features:

- Scrim Reinforced Polyethylene Sheeting
- Nominal 6 Mil
- 7 White Eyelet Bands
- Bungee Holes On Bands Every 4 Inches
- UV Treated
- Flame Resistant and Non-Flame Retardant

Scaf-Lite™

Applications:

- Scaffold Enclosures
- Weatherization
- Jobsite Protection
- Construction Enclosure
- Debris Protection
- Worker Safety
- Building Wrap

Product Features:

- High Density Polyethylene Film Encased with Premium Polyethylene Yarns
- Heavy-Duty Eyelet Bands with Bungee Holes
- Nominal 10mil
- Durable, Long-Lasting and Reusable
- Impermeable Sheeting

Ultra-Drain Guards®

Heavy-Metal Model

Remove Heavy Metal Runoff Water at Storm Drain

#9219

Part #	Description
9219	Oil & Sediment Filter Witch Hat

Ultra-Concrete Washout Berm®

Economical Containment for Concrete Washout

- Portable solution for harmful industrial concrete sediment, paint, drywall mud, stucco and mortar
- UV resistant, 10 mil polyethylene.
- Unfolds for simple and quick set up in seconds.
- Compatible with mixer, pump trucks, and wheel barrows.
- Built-in-tie-downs allow Berm to be secured to standard wooden pallets for easier handling and transport.
- Dispose of after evaporation and job completion.

Folded Berm dimensions 48" x 8' x

Weight	5.0lbs (2.0 kg)
Dimensions	48" x 48" x 14" (1,219 mm x 1,219 mm x 356 mm)
Capacity	139 gal. (525 L)

Replace Messy Hay Bales And Keep Sediment And Oil From Entering Drains And Inlets

- Two standard sizes: Part# 9292 fits up to 24" x 24" grates. Part# 9293 fits up to 4' x 6' grates.

- Taller profile helps to identify drains and catch basins in construction sites and overgrown areas.

- Helps comply with NPDES, 40 CFR 122.26 (1999) and TMDL requirements.

Part# 9292

Quick installation — simply remove grate, place unit over catch basin and replace grate.

9292-O/S	Oil/Sediment Model, 36" dia.
9293-O/S	Oil/Sediment Model, 4' x 6'
Other stock sizes & custom sizes available.	

Ultra-Spill Pallet Economy

Developed Specifically to Meet Tight Budgets for Spill Containment Products

- Available in 2-drum
- Applications for the all-polyethylene units include satellite waste collection and storage of virgin chemicals.
- Black color helps hide dirt and grime.
- Meets SPCC, EPA container storage regulation 40 CFR 264.175 and UFC spill containment regulations.
